

Chapter 19.12 - CLUSTER RESIDENTIAL DISTRICT

(Adopted 12/22/2003; Ordinance #0061970)

Section 19.12.010 - Declaration of Intent.

The Cluster Residential District provides minimum standards for specified areas in order to allow more non-farm rural residential places. ~~while at the same time protecting the ability of other, neighboring agricultural producers to continue farming and raising livestock.~~

Section 19.12.020 - Permitted Uses.

- A. One single-family dwelling per buildable lot;
- B. Accessory structures to a permitted use;
- C. Temporary stands for sale of agricultural non-livestock products produced on the premises;
- D. Home-based businesses utilizing only those accessory buildings and structures permitted under this chapter, and which from the premises' property line cannot be seen or heard or felt or smelled and will not have customer visits. (For more information on home-based businesses permitting, see Chapter 19.56.) (Revised April 21, 2008; Resolution No. 068024)
- E. Agricultural activities including but not limited to cropping and grazing of livestock.
- F. Level 1 and level 2 Electric Vehicle Charging Stations. (Revised 10/17/11, Ordinance # 072330)

Section 19.12.030 - Zone and Lot Size Requirements, and House to Acreage Ratios.

- A. The minimum zone size for a short plat consisting of four buildable lots shall be 20 acres. The minimum zone size for a long plat consisting of at least six buildable lots shall be 60 acres.
- B. This zone must be capable of creating at least four lots that are suitable for building a single-family residence.
- C. Lots may be as small as ½ acre as long as the short plat ratio of at least 5 acres per residence is maintained, or the long plat ratio of at least 10 acres per residence is maintained.

Section 19.12.040 - Yard Requirements.

Setbacks are measured from the nearest point of a structure to the property line and are determined by the zoning of the adjacent property. If the adjacent property is zoned:

- A. Cluster Residential District, the setback for all principal and accessory uses and structures shall be 20 feet.
- B. Agricultural District, the setback for all principal and accessory uses and structures shall be 200 feet, unless a waiver from the adjacent landowner is obtained then the setback shall be 100 feet.

- C. The North and South Pullman-Moscow Corridor Districts, the setback for all principal and accessory uses and structures shall be 200 feet, unless a waiver from the adjacent landowner is obtained then the setback shall be 100 feet.
- D. Light or Heavy Industrial District, Heavy Commercial District, or a Highway/Waterway Commercial District, the setback for all principal and accessory uses and structures shall be 200 feet unless a waiver from the adjacent landowner is obtained then the setback shall be 100 feet.
- E. The right-of-way of any state or county roadway, the setback shall be thirty-five feet from primary and secondary arterials as designated in the Comprehensive Plan and twenty feet for non-arterials. All residences shall be setback no less than 100 feet from any road right-of-way.

~~The minimum setback for all principal and accessory uses and structures shall be twenty feet on all sides, provided that a minimum setback of thirty-five feet shall be required for any yard adjacent to the right-of-way of any state or county roadway designated as a primary or secondary arterial in the Comprehensive Plan. To facilitate setback location, measurement may be made from the centerline of the road. The front yard setback shall be half the distance of that specific right-of-way width, plus thirty-five feet, as measured from the road centerline.~~

Section 19.12.050 - Height of Buildings.

The maximum height of buildings and structures in this district shall be thirty-five feet as measured from the average of the highest and lowest natural grade points of the foundation, to the top of the roof.

Section 19.12.070 - Short Plat and Long Plat Subdivisions.

Whitman County shall accept no short plat or subdivision for residential use within this Cluster Residential District unless such plat complies with this chapter:

- A. Short plats:
 - 1. A short plat in this zoning district must create four buildable lots in a zone of at least 20 acres; additional non-buildable lots, to be held in common ownership by a homeowners' association and not certified as eligible residential parcels, may also be created. The short plat shall identify any non-buildable lots as non-buildable and include a note stating that no residences may be constructed on parcels so labeled.
 - 2. The four buildable lots must meet code requirements so that they are eligible for residential building permits. These lots must be platted, and the plat must show the private road right-of-way, preliminary drain field locations, well locations and utility easements. Road construction must be completed to each lot prior to the issuance of any building permit.

Proof of adequate, potable water is required prior to approval of the short plat per RCW 19.27.097(1) or as subsequently revised.

3. Minimum lot size shall be ½ acre and there is no maximum lot size.
4. If land is not held in common ownership, easements for roads and utilities must be provided. Road and utility construction and maintenance agreements are required.
5. Cluster Residential Districts, once created and platted, shall not be further subdivided unless the zoning classification is changed ~~or the land is annexed.~~ Minor boundary line adjustments or a replat of the original short plat may be allowed as long as these changes do not jeopardize the integrity of each lot as a building site nor the accessory systems developed to support the plat.
6. Prior to approval of the plat, the land owner shall file with the County Auditor a deed restriction and/or easement of acceptance of agricultural operations document. This document shall also be printed on the plat or adequately referenced so that future buyers have opportunity to be aware of this deed restriction and/or easement. Applicants for any residential building permit shall sign and file a form that indicates they are aware of the deed restrictions and/or easements. Documents that in the future convey the land to new owners shall also acknowledge the existence of these filed documents. The deed restriction and/or easement sample is attached to the last part of this chapter.
7. Once an area has been successfully zoned Cluster Residential District, the process of platting may be initiated and completed. Upon successful completion of platting, the lots may be conveyed and building permits sought.

B. Long plats:

1. A long plat must create at least six buildable lots in a zone of at least 60 acres; additional non-buildable lots, to be held in common ownership by a homeowners' association and not certified as eligible residential parcels, may also be created. The preliminary and final plats shall identify any non-buildable lots as non-buildable and include a note stating that no residences may be constructed on parcels so labeled.
2. For each additional buildable lot, the zone size must be expanded by 10 acres, so that the ratio of 10 acres per residence is maintained.
3. The six or more buildable lots must meet code requirements so that they are eligible for residential building permits. These lots must be platted, and the

plat must show the private road right-of-way, preliminary drain field locations, well locations and utility easements. Since a long plat can be phased, road construction must be completed to each lot prior to approval of that phase of the long plat, (the Final Plat). Proof of adequate, potable water is required prior to approval of the Final Plat per RCW 19.27.097(1) or as subsequently revised, although a developer may wish to assure an adequate supply of potable water earlier in the process.

4. Minimum lot size shall be ½ acre and there is no maximum lot size.
5. If land is not held in common ownership, easements for roads and utilities must be provided. Road and utility construction and maintenance agreements are required.
6. Cluster Residential Districts, once created and platted, shall not be further subdivided unless the zoning classification is changed ~~or the land is annexed~~. Minor boundary line adjustments or a replat of the original long plat may be allowed as long as these changes do not jeopardize the integrity of each lot as a building site nor the accessory systems developed to support the plat.
7. Prior to approval of the plat, the landowner shall file with the County Auditor a deed restriction and/or easement of acceptance of agricultural operations document. This document shall also be printed on the plat or adequately referenced so that future buyers have opportunity to be aware of this deed restriction and/or easement. Applicants for any residential building permit shall sign and file a form that indicates they are aware of the deed restrictions and/or easements. Documents that in the future convey the land to new owners shall also acknowledge the existence of these filed documents. The deed restriction and/or easement sample is attached to the last part of this chapter.
8. Once an area has been successfully zoned Cluster Residential, the process of platting may be initiated and completed. Upon successful completion of platting, the lots may be conveyed and building permits sought.

Section 19.12.080 - Conditional Uses and Administrative Uses.

Because of considerations of traffic, noise, lighting, hazards, health and environmental issues, the following uses shall not be permitted in the Cluster Residential District unless a conditional use permit authorizing such use has been granted by the Board of Adjustment:

- A. Home-based businesses that exceed the threshold of a permitted use may be allowed as an administrative use or a conditional use. (For more information on home-based businesses permitting, see Chapter 19.56.) (Revised April 21, 2008; Resolution No. 068024)
- B. An Administrative Use Permit is required for a Level 3 Electric Vehicle Charging Station. (Revised 10/17/11, Ordinance # 072330)

Section 19.12.90 Special Features for Cluster Residential District, (CRD)

A. PURPOSE: This section establishes potential locations for and allows for the creation of Cluster Residential Districts, (CRD), designed to foster creative, efficient, and comprehensive site development, intended for special site locations, conditions and circumstances, in concert with WCO Chapter 18.50, Subdivision Ordinance, and:

- 1. Produce a non-farm rural residential development which would be better than traditional, scattered houses, through variety in design, placement of buildings, and use of undeveloped natural areas, in order to capitalize on the special features of the individual site;
- 2. Permit flexibility that will encourage a more creative approach in the development of land and will result in a more efficient, aesthetic, and desirable use of undeveloped areas, while at the same time harmonizing with adjoining development;
- 3. Ensure preservation of important natural habitat, and important ecosystems;
- 4. Preserve and enhance special site features including areas of cultural significance and, habitat, wetlands and; compliance with the County's critical areas ordinances.
- 5. Maximize use of alternative energy sources and energy-efficient structures, while employing strategies for conservation of water and other resources.

B.

- 1. There is created the possibility for a Cluster Residential District within specific areas of Whitman County, hereafter termed CRD Opportunity Areas, as follows:

The areas that may be converted from Agricultural District to the Cluster Residential District are those remaining areas from the originally identified cluster opportunity ~~areas~~ ~~zone~~ that lie outside the tax sharing area agreed upon between the County and the City of Pullman. The tax sharing area is identified as follows: The following

described land located in Whitman County, State of Washington:

All that part of the NE $\frac{1}{4}$ of Section 25 lying southeast of a line drawn from the NE corner of the NE $\frac{1}{4}$ to the SW corner of the NE $\frac{1}{4}$ of said Section 25; The SE $\frac{1}{4}$ of Section 25; All that part of the SW $\frac{1}{4}$ of Section 25 lying southeast of a line drawn from the NE corner of the SW $\frac{1}{4}$ to the SW corner of the SW $\frac{1}{4}$ of said Section 25; All of Section 36; the East $\frac{1}{2}$ of the NE $\frac{1}{4}$ and the East $\frac{1}{2}$ of the SE $\frac{1}{4}$ of Section 35; All in Township 15 North, Range 44 East, W.M. All that part of the SW $\frac{1}{4}$ of Section 25 lying west of a line that lies approximately 1,920 feet east and parallel to the West Section line of said SW $\frac{1}{4}$ of Section 25; The SE $\frac{1}{4}$, the SW $\frac{1}{4}$ and the NW $\frac{1}{4}$ all in Section 26; Sections 27, 28, 29, 30, 31, 32, 33, 34 and 35; The SE $\frac{1}{4}$, the SW $\frac{1}{4}$ and all that part of the NW $\frac{1}{4}$ lying west of a line that lies approximately 1,920 feet east and parallel to the West Section line of said NW $\frac{1}{4}$, all in Section 36; All in Township 15 North, Range 45 East, W.M.

The South $\frac{1}{2}$ of Section 31; the SW $\frac{1}{4}$ and Government Lots 3 and 4 of Section 32; All in Township 15 North, Range 46 East, W.M.

The NE $\frac{1}{4}$, the NW $\frac{1}{4}$, the SE $\frac{1}{4}$ and all that part of the SW $\frac{1}{4}$ lying easterly of a line that lies 1,000.00 feet westerly and parallel to the centerline of SR 195 all in Section 1; All that part of the East $\frac{1}{2}$ of Section 2 lying easterly of a line that lies 1,000.00 feet westerly and parallel to the centerline of SR 195; All that part of Section 12 lying easterly and northerly of the centerline of SR 195 and all that part of said Section 12 lying between the centerline of said SR 195 and a line 1,000.00 feet westerly and southerly and parallel to the centerline of SR 195 from the intersection of SR 27 and SR 195 to the northerly section line of said Section 12; All in Township 14 North, Range 44 East, W.M.

The NE $\frac{1}{4}$, the NW $\frac{1}{4}$ and the North $\frac{1}{2}$ of the SW $\frac{1}{4}$ all in Section 1; The NE $\frac{1}{4}$, the NW $\frac{1}{4}$, the North $\frac{1}{2}$ of the SW $\frac{1}{4}$, the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$ and the North $\frac{1}{2}$ of the SE $\frac{1}{4}$ all in Section 2; Sections 3, 4, 5, 6, 7 and 8; All of Section 9 lying northerly of the said centerline alignment for the "Alternative B" route as drawn and shown in the South By-Pass Conceptual Route study prepared for the City of Pullman by Taylor Engineering dated November 28, 2005, and also lying northerly of the centerline of County Road Number 9070, Old Moscow Road; All of Section 10 lying northerly of said centerline of County Road Number 9070, Old Moscow Road; All that part of the North $\frac{1}{2}$ of Section 18 and the North $\frac{1}{2}$ of the NW $\frac{1}{4}$ of Section 17 lying northerly of the centerline alignment for the "Alternative B" route as drawn and shown in the South By-Pass Conceptual Route study prepared for the City of Pullman by Taylor

Engineering dated November 28, 2005; All in Township 14 North, Range 45 East, W.M.

(A map has been produced to show this area.)
(Revised 12/21/15, Ordinance # 077295).

2. Land within the above-described ~~general~~ areas may be considered for rezoning to Cluster Residential District. (Any area defined by interlocal agreement between the county and the city of Pullman that describes city expansion areas [adjacent to water and sewer line potential extensions] will be excluded from this zone.) The process by which this zone may be created is as follows:

~~The proposed Cluster Residential District zone change shall be at least 1,000 feet distant from any commercial agricultural land and any other commercial or industrial zone or existing conditional use that may have compatibility issues with the proposed Cluster Residential development, unless the owner(s) of said lands sign a waiver that they do not object to the establishment of such a zone.~~

~~b. If no waiver is obtained, the zone change application may still be presented to the Planning Commission public hearing, but the burden of proof that said development would not negatively affect the adjacent agricultural land operations, commercial or industrial land use shall rest with the zone change applicant. The applicant must to the satisfaction of the Planning Commission, cogently explain how the proposed zone change and development would not hamper or curtail current agricultural, commercial or industrial practices, such as but not limited to prevailing wind problems, aerial applicator flight patterns required by topography, odor, noise, livestock, hours of operation and so forth.~~

~~b. The applicant shall hold a meeting, with planning staff present, to discuss concerns with neighboring land owners, farm operators and residents before the hearing. Planning staff shall take notes at this meeting.~~

e.a. The site plan prepared as part of the zone change application shall designate an area for the shared well, or for individual wells on each lot.

d.b. The site plan prepared as part of the zone change application shall show preliminary County Environmental Health information that potential residential sites will have access to area and soils adequate to be permitted for septic system

drain fields, sufficient for each proposed residential building site.

- ~~e.c.~~ The zone change application must show that the proposed access from an improved county road or state highway can be obtained from the appropriate government agency.
- ~~f.d.~~ The internal road that serves the lots shall be a shared private road. In general, this road shall be designed to stay on one of the land's contours. It shall be engineered to County standards, or as approved by the County Engineer, and shall meet fire code requirements.
- ~~g.e.~~ ~~The dwelling area is defined as the area of a parcel of land in which building construction can occur, such as the area suitable for structures and landscaping.~~ Wells, drain fields, driveways, the internal road, and so forth could be allowed within the setback/buffer area, but must maintain ~~the required a~~ 20-foot setback from the zone perimeter.
- ~~h.f.~~ The setback/buffer from the perimeter of the Cluster Residential zone to the structures within the lots, ~~or the dwelling area within each lot, shall be as stated in Section 19.12.040 - Yard Requirements, horizontal 200-foot distance shall not be rendered impervious, except those areas used by driveways and internal roads.~~ of pasture, hay or native vegetation in those cases where the exterior Cluster Residential zone boundary is adjacent to lands in commercial agricultural use.
- ~~i.g.~~ Compliance with the County's critical areas ordinances will direct development away from flood hazard and wetland areas, and will protect the aquifers. The Building and Fire Codes will guide development with regards to steep slopes and geologically hazardous soils. Structures built on 1:3 slopes or steeper are subject to additional Building Code provisions.
- ~~j.h.~~ Prior to the zone change public hearing, within county jurisdiction, notice shall be mailed to land owners within 1,000 feet of the proposed zone boundaries. Within city jurisdiction the notice distance shall be 300 feet. The property shall be posted with a public notice and the notice shall be published.
- ~~k.i.~~ Prior to approval of any short plat survey or preliminary long plat survey, any Declaration of Covenants, Conditions and Restrictions (CCR) associated with said subdivision shall be reviewed by the County Planner for inclusion of
i Regulations controlling assessments for the improvement and maintenance of shared

- infrastructure such as driveways and water systems.
 - ii. Regulations controlling amendment of the CCR document;
 - ~~±.j.~~ The CCR document may include other restrictions, such as those addressing type of construction, which are not required by Whitman County.
3. Special requirements within the zone:
- a. A grading permit shall be required prior to the disturbance of any vegetation and soils. Grading shall disturb the minimum area needed for the developments. It may be necessary for a grading permit to be issued prior to each new proposed development if the development occurs in phases or over time. The grading permit requirement shall be enforced through the Building Code.
 - b. ~~Structures shall be located so that their highest point shall be lower than elevation of the highest ridgeline or hilltop within one-half mile of the building site.~~ All buildings and structures located on hills or ridges shall be sited and/or constructed to minimize the appearance of a silhouette against the sky as measured this way. No part of the structure shall be higher than the highest part of the landform on which it will be built. A landform is described for the purpose of this chapter as the natural topographic high point separated from other topographic high points by a drop of at least 40 feet.
 - c. Prior to the issuance of a building permit, in consultation with the appropriate Fire District, fuel breaks shall be designed to protect structures. It shall be the responsibility of each home owner and/or resident to implement and maintain the fuel break in such condition as to protect structures from wildfire damage. Whitman County shall have no liability for any wildfire damage.
 - d. Any development that is planned to meet State Department of Ecology storm water requirements shall be presented to Whitman County as part of the plat design. Although this is not a County requirement, this will involve land use, so the details of that development and/or the structures required shall be provided to Whitman County. In some cases, it may be possible to combine this with, for example, a fire flow storage system.
 - e. Outdoor lighting shall be of full cut-off design.

4. The deed restriction and/or easement sample as stated below shall be used when Cluster Residential Districts are created, and when there is a residential building permit and/or conveyance of Cluster Residential District lot ownership:

- a. Acknowledgement

COUNTY OF WHITMAN
STATE OF WASHINGTON

CERTIFICATION OF ADJACENT AGRICULTURAL USE

The undersigned do hereby certify to be the owner(s) of the hereinafter legally described real property and do hereby acknowledge that the proposed development is within the vicinity of property utilized for commercial agricultural purposes. Persons who may reside or work in any of the proposed structures may be subjected to inconvenience or discomfort arising from the pursuit of agricultural operations, including but not limited to plowing, seeding, application of agricultural chemicals (herbicides, pesticides, and fertilizer), cultivation, harvesting, the keeping of livestock, employment and use of labor, the operation of machinery, the transport or relocation of farm machinery or farm products, the storage of crops, and other accepted and customary agricultural activities conducted in accordance with federal and state laws. These normal agricultural practices that occur any time of day and any day of the week generate dust, fumes, smoke, noise and odor, and may slow traffic, or otherwise conflict with residential property uses. Whitman County has established agriculture as a priority use on agricultural lands (Ordinance No. 044668, February 4, 1991). Residents of property within the vicinity of agricultural lands should be prepared to accept such inconvenience or discomfort from normal, necessary farm and ranch operations. In the event of conflict, the residential property owner recognizes the preference to resolve it in favor of farm and ranch practices. The party(ies) who sign this acknowledgement, and their successors, hereby waive all common law rights to object to normal and necessary agricultural management activities legally conducted on agricultural land that may conflict with the use of this property for residential purposes.

This statement of acknowledgement shall be recorded with the Whitman County Auditor, and shall be binding on the undersigned, any future owners, encumbrances, their successors, heirs, or assignees.

Legal description of land:

The existence of this Certification must be conveyed to each future owner of this property.

(Revised 4/30/07 Ordinance #066838, effective 5/15/07)
